# Structures Work Agreement

## **1.0 Meeting Times:**

Structures will meet at the regular bi-weekly meeting times, plus extra hours required during fabrication periods. These will be added and scheduled as needed to complete projects

## **2.0 Expected Work Hours:**

Work during meeting times is required. If meetings are missed, work will be made up outside of meetings. Delegated tasks may be taken on by team members to do between meetings.

## **3.0 Other Expectations:**

All team members are expected to complete the work they have taken on, or ask for help if it is necessary. Open communication between team members and the rest of rocketry is expected.
